Dear Students and Parents,

I hope and pray that you are safe amidst this pandemic crisis of Covid-19. Every day I thought that the situation would improve soon and I would meet you as students in the Class and as parents in the school campus. But the situation is unbecoming and unfriendly. It is going to be more than two months, since the pandemic outbreak lashed out our country and the world at large. It's a disaster indeed and the entire nation stands still. I feel that when things are not within our control, we need to handle it wisely. We need to take care of ourselves. I am pretty sure that you are very well aware and careful with regard to your movement, etiquette and other social distancing norms. It is rightly said, "prevention is better than cure". So kindly take care of yourself first and then reach-out to those in need. 'Charity begins at home'. First help yourself properly and begin everything with yourself and your home. Generously help the poor and needy at the time this distress.

I am sure that your class teachers are in constant touch with you. Do not be worried and anxious with your studies. You need to take care of health first; when you take care of your health, the rest will follow. So, we are with you every possible way. I am also aware that you have done your projects in the month of April 2020. Congratulations! to all of you for being so faithful to your work and completing it on time. However, teachers are asked to guide you in ongoing minor-studies at home. I am sure you are doing it and benefiting from it. For the month of May we have given you small, small activities both for academic and co-curricular areas. I am sure you are actively participating to gain some knowledge and to keep in touch with your studies continuously. We are planning to initiate your school studies in a creative way through distance mode with the help of available online methods for the upcoming days, till the school re-opens. We will inform you when everything is set. Meanwhile you keep learning vocabulary, learning spellings of difficult words, making sentences, experiments, personal projects, hand-writing, reading text books and inspirational books, preparing quiz banks etc. If you require any help, please contact your class teachers.

With regard to the re-opening of the school, we have not received any clear-cut guidelines. When the government announces the dates, we will inform you. To prevent the spread of COVID-19: Do not engage in group games out side your home. Follow strictly the social distancing norms. Wash your hands very often with soap/ use sanitizer, use face-masks, maintain a safe distance from anyone who is coughing or sneezing. Cover your nose and mouth with your bent elbow or a tissue when you cough or sneeze. Stay home if you feel unwell. If you have a fever, cough and difficulty breathing, seek medical attention. Follow the directions of your local health authority.

Principal

**STAY HOME. SAVE LIVES.**
