Dear Teachers,

Greetings from St. Johns Public School, Mohan Nagar, Nagpur!

I hope and pray that you are safe amidst the Covid-19 pandemic. I sincerely thank you for rendering your service to the children who are under your care. I admire your efforts to teach the children online. I am aware that you put in a lot of efforts to prepare the online classes and present it systematically. However, I receive number of complaints from the parents which we need to reflect upon and change them for a better relationship and a successful way of imparting education. Our behaviour pattern influences our parents both positively and negatively. Our parents want a good approach more than our teaching. I do believe that at this moment of this Covid situation, we need to be more compassionate and caring along with our teaching and learning process. I wish to bring to your notice some feed-back given by our parents. Kindly take note of these feed-back and bring generous change in your approach.

- ☞ Teachers should take care of the **dress code**. Kindly wear a formal dress while teaching and whenever you talk to parents through video chat. During teaching hours, you **should** wear only formal dress and not home-wears. Kindly wear **saari** for lady teachers and **decent pants and shirt** for gents' teachers. Remember you are a teacher. Your image, public conduct and presentation creates a positive image to the society.
- ☞ When you take class, please keep the camera angle properly; so that parents are not scandalized. If you wear a good dress, you can avoid any inhibitions.
- ☞ Do not put off the videos while teaching.
- ☞ The way you present your content matters. Avoid errors. Do not type wrong spellings. Some are making silly mistakes even for the common words. Please be a little more alert and conscious.
- ☞ It was brought to my notice that many are not at all punctual to your online classes. Many are not teaching even 20 minutes. It is really sad to hear. It is happening repeatedly. Please do improve.
- ☞ Some teachers are very rude in talking to parents, often end-up with arguments. Parents seek for co-operation and guidance.
- ☞ Subject like maths need to be explained in a systematic manner, go slow, make sure students have understood.
- ☞ Have a smile on your face when you begin the class and end the class.
- ☞ Do not arrogantly scold the children when they are online. Speak to them politely and gently.
- ☞ Correct students misbehaviour in a humane way. Give them time and space to improve.
